

The City of Southlake Community Services Family Program COVID-19 Precautions

The health and safety of participants is our first priority!

Here is what we are doing to keep your family and others safe:

- We have developed and implemented increased daily sanitation protocols for common surfaces, restrooms, dining areas, recreational equipment, and facilities.
- We have trained all staff and worked with instructors and vendors to ensure the health protocols adopted are being successfully implemented and followed such as, cleaning and disinfecting, hand hygiene, physical distancing, and respiratory etiquette.
- We have made hand sanitizer, disinfecting wipes, soap and water, or similar disinfectant readily available throughout the programs.

A healthy program begins at home!

You can help us keep your family and others safe by:

- Staying home if a member of your family is feeling sick.
- Reminding your family to sneeze/cough in their sleeves.
- Reminding your family to wash their hands often, especially before eating and after toileting.
- Sharing with your family the importance keeping their hands away from their faces.

For 14 days after the program, there is an enhanced risk when your participant is in direct contact with anyone age 65 and older. We encourage you to make the best possible decisions for yourself and your family by following expert guidance and advice

Screening Process

Each participant, staff member, and instructor will be screened upon arrival to the program. Parents/guardians, staff, and instructors will be asked the following questions:

1) Has a member of your family been in close contact with a person who is lab confirmed to have COVID-19?

2) Has a member of your family shown signs of ANY sickness in the last 72 hours? (please see our Sick Participant Plan found under our Resources section on this page)

If a participant, staff member, or instructor answers 'yes' to any of the above screening questions or is observed to have any signs of sickness, they will not be granted admission to the program. All participants, staff, and instructors will have their temperature taken upon arrival. If their temperature meets or exceeds 100.0 degrees Fahrenheit they will not be permitted to enter. If a participant, staff member, or instructor exhibits signs of any sickness at any point in the program, they will be sent home.

Our staff and instructors will always be wearing cloth face masks, cleaning regularly, implementing set times for hand washing, keeping groups separate when possible, and enforcing physical distancing. When items must be shared, we will encourage participants to clean their hands. Once done with the item it will be fully sanitized.

Participants ages 10 and older must wear a mask unless they are engaging in physical activity.

If a participant tests positive for COVID-19 during or within seven days of their time at the program, all participants will be notified. If you choose to remove your participant from the program, you may do so. If you choose to let your participant remain at the program, we will continue to take the appropriate safeguards.
